## PREFATORY REMARKS.

This report deals mainly with grants for Civil expenditure of the Central Government (excluding Railway and Posts and Telegraphs transactions). It also deals with grants for expenditure in England incurred by the Secretary of State and the High Commissioner for India and with the grants for certain debt heads for which definite grants have been sanctioned. The transactions to which these appropriation accounts pertain are dealt with by the different Civil Account and Audit offices in India and by the Accounting Officers and the Auditor in London. The Accountant General, Central Revenues, consolidates all the accounts, and thus the Report presents in one place a record of, and, where necessary, a commentary on, all the Civil transactions relating to the Central Government (excluding Railway and Posts and Telegraphs transactions), so as to facilitate consideration by the Committee on Public Accounts and the Finance Department.

Where accounts have been separated from audit, the appropriation accounts are prepared by the separate accounting officers of the departments and these accounts are received through the Audit Officers concerned who endorse a certificate of correctness as a result of their test-audit.

2. In respect of the transactions not audited by the Accountant General, Central Revenues, the part played by him, it may be observed, is primarily one of consolidation, though, in the process, and in order to provide a co-ordinating influence and secure a certain uniformity of treatment, he is compelled to edit the material furnished to him and often to enter into protracted correspondence with various officers.

The Accountant General, Central Revenues, has also been authorised to omit any paragraphs furnished by Audit Officers in India which, in his opinion, are not important enough for mention in the Report as 'Important Comments' under the accounts or elsewhere.

3. Where accounts have been separated from audit, financial irregularities may fall into different categories, *e.g.*,—

- (i) Those discovered by accounts and pursued by accounts (P).
- (ii) Those discovered by accounts and pursued by audit (Q).
- (iii) Those discovered by audit and pursued by accounts (R).
- (iv) Those discovered by audit and pursued by audit (S).
- (v) Those discovered and pursued more or less simultaneously both by audit and accounts (T).

It has been decided that all irregularities of an important nature should be mentioned in the Report on the Appropriation Accounts, irrespective of the agency which discovered or pursued them. In order to prevent all possibility of misconception as to the source from which the subject matter of the cases of financial irregularity included in this Report has

been derived, the relevant paragraphs of the comments below the appropriation accounts have been distinguished by the guide letters as noted above.

4. The Report contains five main chapters, *viz.*, (i) Introductory, (ii) Changes of the year under report, (iii) General review of the results of Appropriation Audit, (iv) Points outstanding from previous Reports and (v) Appropriation Accounts with comments thereon.

5. A general index has been appended to the Report.

6. The Public Accounts Committee in paragraph 38 of their Report on the Appropriation Accounts for 1924-25 commented on the size of the Appropriation Accounts and Report thereon and expressed a desire that its size should be reduced. In the present Report an endeavour has been made to cut down the bulk by various methods which have been fully explained in Chapter II "Changes of the year under report".

## CHAPTER I.—INTRODUCTORY.

*(Any figure in this Report unless preceded by the "Rs." sign, represents rupees in thousands.)*

**1. Object of the Report.**—The object of the Appropriation Accounts and the Report thereon is to present the audited accounts of all the expenditure of the year, whether voted or non-voted, in the form of a separate appropriation account for each grant, with the more important observations which the audit officers consider it necessary to make as a result of audit investigation. The Report constitutes the "Appropriation Accounts of the Governor General in Council and the Report of the Audit Officer thereon" mentioned in Rule 51 of the Indian Legislative Rules. It is transmitted by the Auditor General with his comments to the Governor General in Council for consideration of the Government of India and for submission by them to the Committee on Public Accounts. The Report is also forwarded by the Auditor General to the Secretary of State through the Governor General in Council, as required under the statutory rules, with his detailed comments on the Report and other comments of a general nature.

**2. Constitution and Functions of the Committee on Public Accounts.**—This Committee is a statutory body, constituted in pursuance of Rule 51 of the Indian Legislative Rules, for the purpose of dealing with the Audit and Appropriation Accounts of the Governor General in Council and such other matters as the Finance Department may refer to the Committee. It consists of not more than twelve members, including the Chairman, of whom not less than two-thirds are elected by the non-official members of the Legislative Assembly and the remaining members are nominated by the Governor General. The Hon'ble the Finance Member is the Chairman of the Committee and, in the case of an equality of votes on any matter, has a second or casting vote. The Auditor General in India and certain Audit Officers are usually invited to assist in the deliberations of the Committee.

In scrutinising the Appropriation Accounts of the Central Government and the Audit Officer's Report thereon, it is the duty of the Committee to satisfy itself that the money voted by the Assembly has been spent within the scope of the demand granted by the Assembly. It is also the duty of the Committee to bring to the notice of the Assembly:—

- (i) every re-appropriation from one grant to another grant;
- (ii) every re-appropriation within a grant which is not made in accordance with the rules prescribed by the Finance Department; and
- (iii) all expenditure which the Finance Department has requested should be brought to the notice of the Assembly.

The Committee is entitled to offer criticism and recommendations upon any matter discussed in the Report as well as in the Appropriation Accounts or in the Auditor General's forwarding comments, whether such matter concerns the accounts of expenditure, voted or non-voted, or those of receipts.

The Committee is not an executive body. It has no power, even after the most minute examination and on the clearest evidence, to disallow any item or to issue an order. It can only call attention to an irregularity or to failure to deal with it adequately, and express its opinion thereon and record its findings and recommendations.

**3. General Remarks.**—It should be borne in mind, in considering these Appropriation Accounts and the Report thereon, that whilst they are framed on the best information available, and, in the great majority of cases, after communication with the Departments concerned, they are necessarily prepared before the Departmental witnesses have been examined, and that they do not possess the same degree of authority or finality as the Report ultimately presented to the Legislative Assembly by its own Committee on Public Accounts after hearing evidence on the points raised herein. It may also be remembered that they necessarily deal only with the small percentage of cases which are important enough to require comment or investigation, and afford no indication of the standard attained in the administration of public expenditure taken as a whole.

**4. Distinction between matters relating to voted and non-voted subjects.**—A distinction has been maintained in this report between voted and non-voted subjects, and the non-voted figures in the Appropriation Accounts have been printed in italics.

**5. Demands for Grants.**—Under the Government of India Act the proposals of the Governor General in Council in respect of moneys required for expenditure under certain heads are submitted to the vote of the Legislature. These proposals in connection with the votable part of the Budget are presented in the form of Demands which, when accepted, become Grants available for expenditure within the scope of the Demand. It is for the Hon'ble the Finance Member to settle the form in which the Demands should be presented, but ordinarily a separate Demand is proposed for each Department of Government. Each Demand contains, first, a statement of the total amount required, then, details by the sub-heads under which the Grant will be accounted for by the Department concerned, and lastly, a detailed estimate under each sub-head divided into items.

**6. Appropriation Accounts.**—For purposes of financial control, the grants sanctioned by the Legislative Assembly for voted expenditure and the appropriations made by the Finance Department for non-voted expenditure are divided into sub-heads which have been adopted in the appropriation accounts. The appropriation accounts exhibit in detail the excesses and savings under individual sub-heads with reference to which financial control was exercised during the year.

The explanations for the variations have been inserted immediately below each sub-head under the Appropriation Accounts where necessary and possible. In a few cases the Controlling Officer did not accept the figures for actual expenditure under certain sub-heads as exhibited in the Appropriation Account. The Report is based on the booked figures of the Account Offices and the explanations for the variations under the sub-heads concerned may require some modification as a result of information that may be placed before the Committee on Public Accounts by the official witnesses.

## CHAPTER II.—CHANGES OF THE YEAR UNDER REPORT.

7. *Change in the form of Accounts and Report.*—The Committee on Public Accounts in their Report on the Accounts for 1924-25 commented on the size of the Accountant General's Report and expressed a desire that it be reduced. The Report to which allusion is made consisted of 594 pages of print. The previous Report contained 680 pages and there was also a separate Appendix of 153 pages on Commercial accounts, published by the Director of Commercial Audit.

8. In the conference of Accountants General held in 1929 it was held that it was unnecessary to draw attention to minor variations as it obscures the effect of drawing attention to the more important variations. As time for the examination of the Appropriation Accounts and the Report thereon by the Public Accounts Committee is, for the present, limited, it is essential, if time is not to be wasted, that the number of points brought to the notice of the Committee should be kept within reasonable limits. The Public Accounts Committee have already desired that the bulk of the Report should be reduced and they have since decided that it is unnecessary to comment on excesses below Rs. 100 in all cases. In the present Report an endeavour has been made, in anticipation of approval of the Committee and the Auditor General to cut down the bulk of the Report :

I.—By proceeding a step further in the elimination of explanations for trivial discrepancies or variations within the following limits generally :—

*Savings.*

|                                                           |                                                                     |
|-----------------------------------------------------------|---------------------------------------------------------------------|
| (a) In all cases where the savings are less than Rs. 100. |                                                                     |
| (b) If the savings are less than Rs.                      | and are also less than.....<br>per cent. of the final appropriation |
| 500                                                       | 20                                                                  |
| 1,000                                                     | 10                                                                  |
| 5,000                                                     | 5                                                                   |
| 10,000                                                    | 3                                                                   |
| Other cases                                               | 2                                                                   |

*Excesses.*

|                                |                                                               |
|--------------------------------|---------------------------------------------------------------|
| If the excess is less than Rs. | and is also less than<br>per cent. of the final appropriation |
| 500                            | 5                                                             |
| 1,000                          | 2                                                             |
| Other cases                    | 1                                                             |

In regard to the variations under sub-heads which concern more than one Account Officer the excesses or savings occurring in the different Audit circles have not been explained in those cases where there is no appreciable discrepancy against the sub-head as a whole, *i.e.*, where the final result is reasonably accurate. Outside the percentage limits, however, the worst case contributing to the result has generally been mentioned without referring to the counterbalancing saving or excess.

II.—By eliminating the explanations or portions of explanations for savings relating to 'Pay of officers' and 'Pay of Establishments' even if outside the percentage limits, when the same are due to the following causes (i) changes of personnel (*i.e.*, when an incumbent of a post is replaced by one drawing a smaller rate of pay), (ii) posts other than those newly created not having been filled the whole time, (iii) non-utilisation or part utilisation of the provision for leave salary. It has been recognised that the best way of dealing with such defects is to make a deduction from the estimate, based on past experience, of such savings. In some cases such deductions have not been made, or they have not been sufficiently large, or they are included in lump cuts under the Grant. It would have unduly increased the bulk of the Report and led to a good deal of repetition, if the explanations furnished for the savings under these heads had been repeated in each case.

III.—By compressing into a smaller compass the wording used at the head of the accounts on each page and by doing away with the column numbers so as to occupy less space.

9. It is not intended that the percentage limits, etc., should be applied by the various Accounting Officers in India who furnish Appropriation Accounts to the Accountant General, Central Revenues, for compilation of the Report for all India, except in regard to sub-heads which wholly concern one accounting officer and the figures under which have not to be consolidated. Necessary instructions will, as usual, be separately issued by the Accountant General, Central Revenues, for the guidance of the Accounts Officers concerned. As, however, the decision of the Public Accounts Committee on this subject will not be available in time, the various Accounting Officers will continue to furnish the material for the Appropriation Accounts for 1930-31 as in the past, *i.e.*, according to the old procedure, and the Accountant General, Central Revenues, will, in the course of compilation use his discretion as to which explanations to include.

10. The bulk of the Report can be further appreciably reduced in the following two ways :—

- (i) by cutting down the number of sub-heads in the Book of Demands, and
- (ii) by putting the explanations for the variations at the foot of the page.

In regard to (i), this is entirely a question for the Finance Department to decide, and has only been mentioned here so that the matter may be considered in all its aspects. It is, however, worthy of note that the size of the Book of Demands has increased from 680 pages in 1926-27 to 898 pages in 1930-31, the number of sub-heads having gone up by about 500.

As for (ii), this was the procedure in the accounts for 1927-28 and is followed in the English Report. It is submitted for the consideration of the Public Accounts Committee as it will result in considerable saving

of space. It is anticipated that this procedure will not put the Public Accounts Committee to any great inconvenience as the important points are picked out and dealt with separately under the heading 'Important Comments'. Reversion to the old procedure will also save some clerical labour as whenever there is, at present, any change in explanations the forms have, in most cases, to be recopied as there is not sufficient space between sub-heads to carry out the alterations.

**11. Accounts of Aided Institutions.**—A new account of the receipts and expenditure relating to the Central Museum for 1929-30 has been appended to the Appropriation Account for Grant No. "54—Other Scientific Departments", as desired by the Committee on Public Accounts in paragraph 111 of their Report on the Accounts for 1928-29.

**12. Explanations for large variations from previous year's figures in the statements of financial results.**—As desired by the Committee on Public Accounts in paragraph 103 of their proceedings for the 4th July 1930 a suitable footnote has been appended to such statements explaining briefly the reasons for big variations.

**13. Subsidiary Accounts.**—(i) The Government of India have decided that the local audit of the commercial concerns in the Andamans should be conducted by the Commercial Audit Department. The *Pro forma* Profit and Loss Accounts of the Forest, Commissariat, Marine and Shipping Departments in the Andamans, which used to be appended to the Appropriation Account of the Grant for the Andamans have, with effect from 1929-30, been included in the separate Appendix of commercial concerns published by the Director of Commercial Audit.

(ii) The Store Account of the Northern India, Salt Revenue Department for 1929-30 has been excluded from the main Report and has been included in the Appendix of the Director of Commercial Audit.

(iii) A Store Account for Opium for 1929-30 relating to the Western India State Agency has, for the first time and in anticipation of approval, been appended to the Appropriation Account concerned.

**14. Changes in the number of Grants or Appropriations.**—The total number of Grants or Appropriations during the year under report is 84 against 83 in the previous year and is the net result of the following changes :—

(i) The 3 new Grants below have been opened with effect from 1929-30 :—

(1) 46 Lighthouses and Lightships.

(2) 63 Census.

(3) 93 Capital outlay on Lighthouses and Lightships.

(ii) The Appropriation for Capital outlay on Bombay Land Scheme and the Grant No. 72—A. for Miscellaneous adjustments, etc., have been discontinued from 1929-30.

**15. New Sub-heads.**—The new sub-heads opened in the Appropriation Accounts which did not appear in the Book of Demands for the year have been approved by the Finance Department.

**16. Accounts classification.**—The following are the more important changes in classification introduced during the year under review :—

- (i) With the sanction of the Secretary of State for India, the following two major heads with the necessary minor heads have been opened in consequence of the working of the Indian Lighthouse Act, 1927, which came into force from 1st April 1929.
  - (1) 27 (1)—Lighthouses and Lightships.
  - (2) 56-E.-II—Capital Outlay on Lighthouses and Lightships.
- (ii) Percentage recoveries of audit and accounts charges for work done for departments of the Central Government, were adjusted on the receipt side in the previous year. They are now adjusted in reduction of expenditure in consequence of a decision arrived at in the course of the year.
- (iii) The percentage recoveries of audit and accounts charges in respect of non-Government works which were up to the accounts of 1928-29, classified as reduction of expenditure under "23—Audit" have, with effect from 1929-30, been classified as receipts under the head "XXXV—Miscellaneous—Fees for Government Audit".
- (iv) The cost of production of priced publications of the non-paying departments of the Central Government was adjusted in the local books under "46—Stationery and Printing—Central—Printing Work done at Provincial Government Presses for Central Departments". They are now adjusted against the allotment for the Central Publication Branch under "46—Stationery and Printing—Central—E. Central Publication Branch."
- (v) Charges for repairs to Lighthouse buildings were in previous years debited to "41—Civil Works—Central—Repairs—Buildings.". They are now debited to "27(1) Lighthouses and Lightships—Lighthouses Working Expenses—Supplies and Services."
- (vi) The percentage recoveries on account of tools and plant charges in respect of works executed for other departments of the same Government which were up to the accounts of 1928-29 classified as revenue receipts under "XXX—Civil Works" have, with effect from 1929-30, been classified as reduction of expenditure under "41—Civil Works."
- (vii) On account of the transfer of the control of works connected with Civil Aviation from the Public Works Department to the Director of Civil Aviation in India with effect

from 1st April 1929, the expenditure on Civil Aviation Works is charged to the head "36—Civil Aviation" instead of to the head "41—Civil Works", with effect from the year 1929-30.

- (viii) The apportionment of the cost of the Outside Audit Department of the Office of the Accountant General, Bengal, between the Central and Provincial Governments was revised from 40 per cent. and 60 per cent. to 30 per cent. and 70 per cent. respectively with effect from the accounts for the year 1929-30. Further, in consequence of the re-organisation of the Local Audit and Outside Audit Departments of the Office of the Accountant-General, Bengal, from 1st November 1929, the entire cost instead of 30 per cent. of the cost of the Outside Audit Department is being debited to the Central Government, while the entire cost instead of 90 per cent. of the cost of the Local Audit Department is being recovered from the Provincial Government with effect from the accounts for December 1929.

**17. Change in classification from Non-voted to Voted or vice versa.**—It has been decided that the expenditure on residences of Ecclesiastical Officers debited to "41—Civil Works" should not be classified as non-voted.

**18. Change in classification of expenditure from Provincial to Central or vice versa.**—There was no new case of such a nature in the year under Report.

**19. Change in classification which affected estimates.**—It is noticed that during the year under report there have been very few changes in classification which affected the estimates. Instances are sub-head C. 4 (voted), Account II, Grant No. 76 and sub-head G. 6, Account I, Grant No. 80.

## CHAPTER III.—GENERAL REVIEW OF THE RESULTS OF APPROPRIATION AUDIT.

20. *Outturn of the year.*—The following statement compares the total grants or appropriations with the total expenditure :—

|                                                  | Expenditure charged to Revenue. |              | Expenditure charged to Capital. |            | Disbursements of Loans and Advances. | Total.       |              | Grand Total. |

**21. Savings.**—The percentage of total saving in the voted section shows a remarkable improvement, it being 0·09 during the year under report against 4·73 in 1928-29, 6·24 in 1927-28 and 12·25 in 1926-27. About 1·8 per cent. of the total grant was surrendered to Government. This converted the saving to an uncovered excess of about 1·7 per cent. of the total sanctioned Grant. The surrender of 11,32 in the Grant for civil works mainly contributed to this result.

The percentages of savings under the three classes of expenditure (Revenue, Capital and Loans and Advances) referred to in the previous paragraph compare as follows for the last few years :

|                     | 1925-26. | 1926-27. | 1927-28. | 1928-29.     | 1929-30.     |
|---------------------|----------|----------|----------|--------------|--------------|
| Revenue expenditure | 6·88     | 8·41     | 6·34     | 7·14         | 0·18         |
| Capital expenditure | 31·78    | 29·84    | 41·34    | 20·69        | 2·29         |
| Loans and Advances  | 36·71    | 16·0     | 9·15     | 0·33(excess) | 0·30(excess) |

The above indicates decided improvement in budgeting during the year under report so far as the total voted grant for central civil expenditure is concerned.

The result in the non-voted section is not, however, so satisfactory as the following statistics showing the percentages of savings (—) or excesses (+) for the last few years indicate :—

| 1925-26. | 1926-27. | 1927-28. | 1928-29. | 1929-30. |
|----------|----------|----------|----------|----------|
| —3·55    | —1·88    | +0·85    | —0·48    | —3·35    |

The large saving of 65,98 in Grant No. "25 Interest on ordinary debt, etc.", is mainly responsible for the high percentage of saving in 1929-30.

The total amount of excess during 1929-30 in the case of *voted* Grants, which requires the sanction of the Legislative Assembly works up to Rs. 96,30,427 against Rs. 27,21,462 in 1928-29 and Rs. 8,80,652 in 1927-28. The large excess of Rs. 78,98,225 under "Grant No. 25—Interest or ordinary Debt, etc." contributes mainly to the increase in the amount requiring the vote during the year under report.

In the *non-voted* section the amount of excess, which requires the sanction of the Finance Department, comes to Rs. 4,34,856 in 1929-30, against Rs. 21,24,443 in 1928-29 and Rs. 48,91,831 in 1927-28.

**27. Surrender from voted Grants.**—Out of the total voted saving of Rs. 3,31,686 against the total voted grant of Rs. 35,63,42,700, a sum of Rs. 65,30,508 was surrendered to Government. Column 5 of the "Grant Summary of Appropriation Accounts by Grants" appended at the beginning of "Chapter V—Appropriation Accounts with Comments thereon" exhibits the amount of surrender accepted by the Government of India, Finance Department, against each Grant. The following statistics show the instances in which the acceptance of the surrender of savings resulted in uncovered excesses or augmented the excesses against the Grants concerned :—

**31. Control over Expenditure.**—In paragraph 27 on page 14 of the last year's Report the working of the system introduced by the Government of India in most Departments in connection with the reconciliation of official accounts with the departmental accounts was briefly mentioned. It was stated that the monthly statements of expenditure due to the Account office were despatched by the heads of Departments regularly except in Burma in respect of certain heads.

The Accountant General, Burma, states that the monthly statements in respect of the following heads were not sent regularly to his office :—

(i) Ecclesiastical.

(ii) Political.

(iii) Frontier Watch and Ward:

Monthly statements in respect of the above were also not regularly received during 1928-29 and the Accountant General states that the repeated default on the part of the head of the Department makes it imperative to investigate the causes of failure and to devise a remedy for the same.

**32. Instances of defective control.**—Instances of defective control have been mentioned in the explanatory notes or in the Important

Comments under the Grants or Appropriations concerned. A few cases of defective control are given below :—

**37. New Service.**—During the year under report no case of a "New Service" has come to light.

**38. Supplementary Grants (voted) obtained during the year.**—Supplementary grants aggregating Rs. 1,70,78,100 were obtained under 35 Grants in September, 1929, February and March, 1930, as mentioned below :—

|                          | Rs.               |
|--------------------------|-------------------|
| September 1929 . . . . . | 17,100            |
| February 1930 . . . . .  | 1,51,56,000       |
| March 1930 . . . . .     | 19,05,000         |
|                          | <hr/> 1,70,78,100 |

The following supplementary grants obtained from the Legislative Assembly were not on new services, and proved ultimately to be unnecessary as the final expenditure under the grants was well within the original grant :—

| No. and Name of Grant.                    | Session.       | Amount. | Purpose.                                                                                                                                 |

**41. Grants reduced by the Assembly.**—The following reductions were made by the Legislative Assembly in the Demands for 1929-30 presented to them for vote :—

| No. and Name of Demand.                    | Amount.  |
|--------------------------------------------|----------|
|                                            | Rs.      |
| 18. Salt . . . . .                         | 100      |
| 28. Executive Council . . . . .            | 65,999   |
| 38. Army Department . . . . .              | 200      |
| Ditto . . . . .                            | 5,35,800 |
| 76. North-West Frontier Province . . . . . | 100      |

**42. Restoration of grants not assented to by the Assembly.**—Of the reductions made under the Demands referred to in the preceding paragraph the amounts of Rs. 65,999 and Rs. 5,35,800 under Demands 28 and 38 respectively were restored by the Governor General in Council under section 67A(7) of the Government of India Act.

**43. Authorisation of expenditure by the Governor General.**—No expenditure was authorised during the year by the Governor General under Section 67A(8) of the Government of India Act.

**44. Reappropriation from voted to non-voted.**—No cases of this description occurred during the year under report.

**45. Reappropriation from one voted Grant to another.**—See remarks against paragraph 44.

**46. Cases in which expenditure was incurred for purposes not approved of or specifically disapproved of by the Legislative Assembly or the Standing Finance Committee.**—See remarks against paragraph 44.

**47. Cases in which approval of the Standing Finance Committee is necessary in accordance with the principles laid down by that Committee but has not actually been obtained.**—See remarks against paragraph 44.

**48. Loss or Gain by Exchange.**—This head exhibits the difference between the statutory rate for the conversion of sterling transactions into rupees which has been fixed at 1s. 6d. the rupee and the monthly average rate based on the daily Calcutta telegraphic transfer rates on London at which the adjustment of English transactions is made in the Indian Accounts. The budget for English expenditure was framed on the basis of 1s. 6d. the rupee, but no provision was made in the original estimates on account of 'Loss or Gain by Exchange' which resulted from the adjustment of the English transaction at the monthly average rates which varied from time to time between 1s. 5  $\frac{1}{4}$  d. and 1s. 5  $\frac{1}{2}$  d.

In January 1930 the Government of India, Finance Department ordered the provision of necessary funds in the estimates for 1929-30 at 1s.-5½d. the rupee provisionally fixed for the purpose. As a result of this decision funds were provided in the majority of cases, either by supplementary grant or appropriation, or by reappropriation. But as the expenditure under the above head depends upon the expenditure actually incurred and adjusted in England, no accurate estimate was possible.

**49. Public Works Demands.**—In paragraph 42 on page 20 of the Appropriation Accounts of the Central Government (Civil) and Report thereon for 1928-29, the defects of the procedure whereby the *gross* provision under the Public Works Demands was exhibited were commented on. In August 1930 the Government of India, Finance Department issued orders that, with effect from 1931-32, the Demands for Grants on account of Public Works should be presented *net* as in the past to secure correlation of the Appropriation Accounts with the Finance and Revenue Accounts.

**50. Relaxation of Audit.**—As an experimental measure, the full audit of the accounts of the Pay and Accounts Office, Secretariat, has, with effect from October 1929, been replaced by test audit by a smaller staff on the lines of the test audit of the accounts of combined offices of accounts and audit by the Deputy Auditor General, Inspection. This experiment of relaxed audit, if found successful, will, it is anticipated, tend to reduce the cost of the audit staff.

**51. Financial irregularity.**—Individual instances of financial irregularities have been detailed below the Appropriation Account concerned under "Important Comments". The more important types of irregularities are mentioned below and references to typical cases have been quoted against each :—

(i) *Frauds and Defalcations.*—Grant 69, paragraphs 3, 4 and 5; Grant 76, paragraph 2; and Grant 92, paragraph 8.

(ii) *Want of care to safeguard the financial interests of Government.*—Grant 52, paragraph 2 and Grant 71, paragraph 1.

## CHAPTER IV.—POINTS OUTSTANDING FROM PREVIOUS REPORTS.

53. In order to obviate the difficulty experienced every year by the members of the Committee on Public Accounts in dealing with the statements of outstanding items included in the Report on the Appropriation Accounts as well as those laid before the Committee by the Finance Department, the Auditor General, at the suggestion of the Committee, considered it desirable that there should be co-ordination between the two sets of statements. He accordingly issued certain instructions on the subject. In the subjoined table which has been prepared in consultation with the Finance Department, the items have been grouped by Departments and linked with the items in the list of the Finance Department by adhering to the serial number given by that Department. The serial numbers are not consecutive as some of the items of the Finance Department statement have been omitted.

**Central Board of Revenue—concl.**

- 10      1928-29      .      That a note should be submitted on the whole question of the experiment of the sanding of pans at Nawa, which was ultimately abandoned.

**Commerce.**

- 15      1926-27      .      That the Government of India should take up the question of the propriety of debiting Ecclesiastical charges incurred in connection with the Army to the head "Ecclesiastical" in the Civil Estimates.
- 1928-29      .      That an approximate allocation of the Ecclesiastical expenditure between the Civil and the Army Departments should be possible and that a further report on the subject should be submitted in 1931.
- 16      1926-27      .      That the revision of the Ecclesiastical Rules should be expedited.

**Education, Health and Lands.**

- 18      1926-27      .      That the Committee would be glad to know in due course whether the account of timber shipped from Burma and placed with the timber agents in London for disposal has been finally settled.
- 21      1927-28      .      That the Government of India should soon investigate, in consultation with the Provincial Governments, the whole question of the policy to be adopted in regard to the production and distribution of quinine.
- 1928-29      .      That the Government of India should try to dispose of 20 per cent. of their stocks of quinine at a special cheap price in order to encourage a greater consumption of it for anti-malarial purposes and thus to create a better demand for the balance and that they might possibly again circularise the Provincial Governments about it.
- 22      1928-29      .      That, under Grant 56-Public Health, more attention should have been paid to the progress of expenditure before a supplementary grant was asked for and that the expenditure should be watched carefully in future.
- 23      1928-29      .      That whenever the statement showing the financial result of the sale of vaccines, sera, etc., manufactured at the Central Research Institute, Kasauli, showed marked variations from the previous year, it would be useful to have a suitable foot-note explaining the reasons for the variations.

A Supplementary Demand has been voted in February 1931 to clear the outstanding in the accounts.

| 31 | 1922-23                       | . That, as recommended by the Incheape Committee, it is desirable to amend the leave rules which seem to be unnecessarily complicated.                                                                                                                                                                                                                                                                                   |  |
| 32 | 1923-24<br>1924-25            | . That the question of creating a Civil Contingencies Fund on the English model should be considered.                                                                                                                                                                                                                                                                                                                    |  |
| 33 | 1923-24<br>1925-26<br>1926-27 | . That the question of the treatment of losses of revenue due to fraud, defalcation, etc., as a form of expenditure, thereby bringing them to the notice of the Public Accounts Committee through the Appropriation Accounts should be settled at an early date.                                                                                                                                                         |  |
| 34 | 1923-24                       | . That, if sums are lost to the State through the irregular action of an officer who has retired between the date of committing the irregularity and the date of its discovery, it should be considered whether any part of such sums should not be recovered from him in spite of his retirement or whether any disciplinary action in the matter of reducing his pension or otherwise should not be taken against him. |  |
|    | 1928-29                       | . That the Committee took a serious interest in this matter.                                                                                                                                                                                                                                                                                                                                                             |  |
| 35 | 1924-25                       | . That working expenses of Commercial Departments should be shown on the expenditure side of the accounts and the interest received from the Provincial Loans Fund shown on the receipt side.                                                                                                                                                                                                                            |  |

*Audit Certificate.*

I certify that in respect of the transactions included in the Appropriation Accounts, I have either applied the necessary test audit myself or have received assurance from the other audit authorities (except from the Controller of Military Accounts, Rawalpindi) to that effect. The accounts are correct (subject to the observations in the Report) according to the best information available to the audit authorities concerned.

The Director of Army Audit has reported that a sum of Rs. 3,709 on account of commuted value of pensions was erroneously charged to the Army estimates instead of to Grant No. 94 Commuted Value of Pensions. The necessary readjustment has been made in the accounts for 1930-31 at the instance of audit.

The supplementary appropriation of Rs. 4,30,000 included Rs. 4,04,500 for payment to the Army Department for property in Calcutta for the new Custom House. The excess of Rs. 44,297 is mainly due to unprecedented increase in the number of seizures of contraband in Bengal (Rs. 35,000) and increased expenditure in Bombay on certain fluctuating items, chiefly under "Law charges" (Rs. 13,000).

Due mainly to :—

- (i) Non-utilisation of the provision for general taxes payable to the Bombay Municipality as a result of the decision to pay the taxes in arrears and not in advance (Rs. 18,000).
- (ii) Less expenditure on certain fluctuating heads in Bombay (Rs. 19,000).
- (iii) Reduced expenditure on customs publications in Burma (Rs. 23,000).

## IMPORTANT COMMENTS.

*Over-budgeting.*

1. The savings in the provision under the following sub-heads appear to indicate a tendency towards overbudgeting. It is for consideration whether a more accurate estimate is not possible.

(i) A.-5. Purchase and repair of boats.

| Year.         | Appropriation. | Saving. | Percentage<br>of<br>saving. |
|---------------|----------------|---------|-----------------------------|
|               | Rs.            | Rs.     |                             |
| 1926-27 . . . | 56,980         | 13,659  | 24                          |
| 1927-28 . . . | 67,250         | 8,481   | 12                          |
| 1928-29 . . . | 74,400         | 33,748  | 45                          |
| 1929-30 . . . | 53,000         | 24,881  | 47                          |

(ii) A.-6. Store and equipment of boats

|               |        |        |    |
|---------------|--------|--------|----|
| 1926-27 . . . | 44,800 | 13,624 | 30 |
| 1927-28 . . . | 39,750 | 14,762 | 37 |
| 1928-29 . . . | 37,800 | 14,738 | 39 |
| 1929-30 . . . | 33,300 | 6,407  | 19 |

2. *General remarks.*—The original estimate for voted expenditure was fairly accurate and was exceeded by only 0.96 per cent. The supplementary grant of Rs. 4,64,000 obtained on the 18th February, 1930 converted the small excess into a saving of 4.80 per cent. This supplementary grant included Rs. 4,04,500 to meet payment to the Army Department for acquisition of a building in Calcutta for the New Custom House, (sub-head A.-8) and for this purpose a *token* vote might have been obtained as sufficient savings were available within the Grant chiefly under sub-heads A.-2 and A.-11. Of the total gross voted savings of Rs. 3,70,776 only Rs. 30,200 was surrendered.

In the Non-voted section the saving against the final Appropriation is 1.15 per cent.

*Various Irregularities.*

3. The Manifest Section of a certain Custom House could not trace the documents supporting the clearance of 14 packages of electric fans entered in the Import General Manifest of a vessel nor were bills-of-entry in respect of these available in any section of the Custom House. There was also no trace in the records of the Cash Department that any duty had been paid on these packages nor could any entry be found in the transit register, maintained for the purpose of sending up duplicate bills-of-entry collected at the gate of the jetty on clearance of goods, of any document that could be connected with the consignment. The consignees who were asked to produce the triplicate bill-of-entry were unable to do so, but forwarded the invoice and certain other papers and asserted that Rs. 2,400 had been paid as duty, producing certain receipts for payment of Port Trust dues.

Investigations were begun and it was found that the importers' *muccadam* had not paid the provisional duty of Rs. 2,400 which had been assessed on the goods but had cleared them on a false duplicate bill-of-entry on which he had impressed a stamp which was a colourable imitation of the oval stamp used in the Cash and Accounts Sections, entered fictitious Cash and Accounts numbers for the transaction and forged the initials of the Accountant and Cashier. This duplicate bill-of-entry was never discovered and it is now possible to do no more than conjecture how it was removed from the custody of the Assistant Wharfinger on duty at the jetty to whom it must have been presented for the purpose of clearing the goods into the town, and whose duty it was to retain it and send it the next day with the transit book kept for the purpose to the Custom House. There was no evidence of collusion on the part of these officers who, however, were proved to have been absent from their posts without authority during certain hours on the day of the occurrence and have for this been departmentally punished. There were certain directions in which the Custom House felt the procedure was open to criticism, *viz.*, that the oval stamp used in the Cash and Accounts Sections remained in the custody of a peon instead of in that of the Cashier, and that the Accountant and Cashier only initialled the duplicate bills-of-entry within this oval stamp instead of signing in full. These matters have been rectified by the issue of the necessary orders.

The duty on the goods mentioned above was recovered from the importers.\*

4. At another customs port a firm dealing in woollen shawls greatly undervalued a consignment imported in December 1929 by quoting the invoice value instead of the wholesale market value. This was challenged by the appraiser on the ground that there was a wholesale market value for such goods and that assessment fell under Section 30(a) and not Section 30(b) of the Act. Enquiries confirmed the contention of the Custom House regarding the existence of a wholesale market for shawls bearing the descriptive ticket of the kind imported, and inspection of the firm's books also convinced the Collector that wilful undervaluation had taken place. He therefore summarily assessed the consignment on the wholesale market value under Section 87, and under Section 167(37)(c) imposed a penalty of Rs. 1,000. He also, with reference to the provisions of Section 39 demanded payment of duty short collected on 4 earlier importations. The Collector's proceedings were upheld by the Board on appeal.\*

\* Examiner of Customs Accounts.

5. Two Preventive Officers were found guilty of removing without any authority and in suspicious circumstances some leather suit cases from a vessel on her arrival in port. Far more serious charges connected with the removal could not be pressed for lack of evidence. The two officers were dismissed by the Collector of Customs and their appeals against dismissal have also been rejected by the Board.\*

6. Information was received alleging serious mismanagement and misdemeanour at a Customs outpost. Enquiries made on the spot established the fact that ordinary merchandise for sale was being systematically imported from Penang and passed out under various guises, *e.g.*, deck-cargo, traders' cargo, clerks' cargo, passengers' baggage, etc., all these being unmanifested in spite of the rules which require all cargo except *bona fide* personal baggage to be entered in the manifest. It was also found that the duty (if any) collected in such cases was unsupported by any documents other than receipts given to the owner on the baggage declaration statement. There was, of course, no check possible of the correctness of the assessments made. Steps were not being taken by means of Customs tallies or otherwise to see that all cargo discharged from a vessel was brought to the Custom House for examination and assessment nor was there any systematic check of the number of packages or of examination of their contents carried out there.

The officers concerned have been recalled to headquarters. In the case of the senior it has been decided that he should not again hold charge of an outpost. The other has been reverted to the lower grade of the clerical service of the Custom House.\*

*Unsecured overdraft in salt credit account.*

7. The payment of duty on imported salt is, under the rules permitted to be postponed for a period not exceeding six months provided there have been deposited with the Collector of Customs securities sufficient to cover the payment.

In 1923 a salt merchant deposited with the Collector of Customs a treasury bill for Rs. 5,000 and on the same day another merchant deposited securities on which he was allowed credit for Rs. 61,410. The latter amount was not only entered correctly in the account of the actual depositor but was also entered by oversight in the account of the merchant who had deposited the treasury bill for Rs. 5,000 (which was omitted from his account) thus giving him an excess credit of Rs. 56,410. This error, under the system of checks then in force, was not likely to be discovered save in the event of the merchant applying for the final closing of his account. It, however, came to light in 1928 when the accident of closing another merchant's account led to the discovery of the defect. The main drawback of the system was that nowhere in any of the register or forms of account maintained were the amount at a merchant's credit and the total value of the securities held on his behalf exhibited in juxtaposition. The total value of the securities of any particular merchant was not readily available anywhere in the accounts and could only be worked out by a search through the general register of salt credits.

The whole system has since been revised in consultation with Audit and the safeguards now provided are considered sufficient to prevent a recurrence of similar irregularities. (P.)†

*Disposal of contraband drugs seized and confiscated by the Customs Department and the credit of the sale proceeds.*

8. Contraband drugs, such as opium, cocaine, etc., and their preparations, seized and confiscated on importation by officers of the Customs Department under the Sea Customs Act, were in general being handed over to the Excise Departments of the Local Governments for disposal, except in Karachi where the Customs Department itself arranged the sale of confiscated cocaine, appropriating the proceeds to its revenue. The matter was brought to the notice of the Central Board of Revenue in view of large amounts being sanctioned as rewards out of central revenues to officers of the Customs Department taking part in seizures and confiscations.

The Government of India have decided that from the 1st April 1930 the disposal of such drugs should vest in the Central Government and that the credit of their sale proceeds should be customs revenues. (S.)\*

*Temporary misappropriation of public money.*

9. While checking the cash balance of a Customs treasury at an out-post at the close of the day, a deficit of Rs. 750 was noticed by the Customs Collector. The clerk shroff of the Custom House who was handling the money and was responsible for the shortage gave unsatisfactory explanations for it and made good the loss the next day. As the result of a departmental enquiry, a charge of temporary misappropriation by the clerk shroff was established. In consideration of the length and record of his service, no criminal prosecution was launched against him but he was dismissed from service by the Collector of Customs. On appeal, however, the Central Board of Revenue re-instated him, reducing him to the position of a tally clerk.

As a result of the departmental enquiry, it was also found (i) that the amount of Security furnished by the clerk-shroff, viz., Rs. 700 was inadequate in view of the heavy cash collections at the out-post and that it should be raised to Rs. 1,000 and (ii) that the procedure in force was defective in the following respects:—

- (a) the actual amount of remittance to be sent to the Bank was not counted by the Customs Collector nor was it checked with the cash chitta,
- (b) Remittances were sent in an open bag in the custody of peons, and
- (c) the strong room of the Treasury was provided with a single lock only, the key of which was in the custody of the Customs Collector.

The Assistant Collector of Customs who conducted the enquiry suggested as remedies that the amount of each remittance should be counted, that it should be sent in a locked and sealed box escorted by two peons and that the strong room should be provided with a second lock, the key of which should be in the custody of the clerk-shroff.

The security of the clerk-shroff was raised to Rs. 1,000. The Collector of Customs has also issued general rules governing the custody and remittance of Government money for the guidance of officers at outports and Land Customs Stations.†

*Interpretation of Fundamental Rule 69(b).*

10. A member of the establishment of a certain Custom House was granted a year's leave on medical grounds and was simultaneously permitted by the sanctioning authority to take up private employment while on leave. The propriety of this was questioned in audit on the ground that if the officer's state of health demanded that he should be allowed medical leave it was not correct to permit him to take up private employment. It was pointed out that the grant of leave on medical certificate gave the officer 8 months' leave on average pay against about  $3\frac{1}{2}$  months then at his credit in his leave account. As the sanctioning authority was of the view that the policy adopted by Government in respect of permission to take up employment during leave did not seem to have any apparent connection with financial questions, the matter was referred to the Auditor General with an intimation that the financial effect of the sanction was an excess charge to Government of about Rs. 1,500. The result of this reference was the issue of Finance Department's letter No. F./147-R. I./30, dated the 30th October 1930 stating that though the grant of permission to take up private employment during leave on medical certificate was technically covered by the provisions of Fundamental Rule 69(b), such an arrangement was clearly contrary to the spirit of the regulations, and directing that Fundamental Rule 69 should not be construed as permitting a Government servant who avails himself of leave on medical certificate to undertake regular employment during such leave.\*

NOTE.

Losses.—During the year under report a sum of Rs. 11,960 covering a number of cases were written off as irrecoverable arrears of Income-tax and penalties thereon by the sanctioning authorities and communicated to Audit. All cases were for petty amounts with the exception of one item of Rs. 2,625 due from a company in Madras, which was wound up and did not possess any property from which the amount could be realised.

### IMPORTANT COMMENTS.

## A. 2.—Manufacture :

## A. 2 (1).—Pay of Officers

*Non-voted* . . . . . 5,673 +5,673 + 4,500 +1,173

The expenditure represents (i) pay of an officer appointed in connection with the floods at Sambhar (Rs. 4,764) and (ii) leave salary of an officer lent by the Government of the United Provinces in 1924-25 (Rs. 909). The net excess could not be anticipated in time.

*Voted* . . . . . 87,440 77,579 —9,861 —7,971 —1,890

Partly due to certain officers having drawn their leave salary from the Home Treasury.

A. 2 (2).—Pay of Establish-  
ments

. . . . . 2,05,510 1,96,476 —9,034 —6,560 —2,474

Employment of a portion of the temporary establishment on daily wages and the adjustment of their wages direct to the maintenance estimates mainly accounts for the saving.

A. 2 (3).—Allowances, Hono-  
raria, etc.

*Non-voted* . . . . . 1,000 +1,000 —1,990 — 990

Represents travelling allowance of an officer employed in connection with the floods at Sambhar (Rs. 300) and honorarium paid to an officer (Rs. 700) for which there was no provision.

and Excavation  
Charges :

. . . . . 10,60,890 10,30,666 —30,224 —30,237 +13

Represents the net result of savings under (i) carriage of salt (Rs. 16,746) owing to reduced demand for salt at a certain salt source and (ii) cost of electric current and maintenance of air compressor plant (Rs. 25,632) due to reduction in the cost of current and economy in working, partly counter-balanced by excess under "Manufacture and Excavation charges" owing to extraction of a larger quantity of salt at a certain salt source (Rs. 12,154).

## A. 2 (4) (b).—Other Charges :

B. 6.—Contingencies . . . . . 25,950      30,822      +4,872      +5,315      —1,443

Excess mainly due to the following causes.—

(i) The system of payment of commission to post offices for issuing licenses for the manufacture of saltpetre was introduced during the year and a commission of Rs. 3,162, was paid on this account, and

(ii) Larger expenditure was incurred on postage and telegram charges in connection with the issue of licenses (Rs. 1,710).

## D.—Capital Expenditure charged to Revenue:—

## Capital Outlay on Salt Works:

D. 1.—Bags . . . . . 20,000      48,067      +28,067      +25,084      +2,983

Excess due to smaller recoveries than anticipated (Rs. 1,45,879), partially counterbalanced by saving due to smaller purchase of bags owing to a reduced demand from traders and to a fall in the price of bags (Rs. 1,17,812).

D. 2.—Plant and Machinery      62,500      15,413      —46,797      —15,540      —25,557

The following causes were responsible for the saving:—

(i) Certain items of plant and machinery for which provision was made in the budget were not purchased (Rs. 16,000).

(ii) Payment on account of certain machinery was actually made in the succeeding year owing to late delivery and it was decided to purchase certain items in instalments from year to year according to actual requirements thus postponing expenditure (Rs. 37,148).

(iii) Certain assets were disposed of and their capital value written down (Rs. 22,401)

These savings were partially counterbalanced by excess due to purchase of machinery for which there was no provision (Rs. 26,863), and to carry over in respect of certain items purchased in previous years (Rs. 1,889). See also Notes.

D. 3.—Stores . . . . . 20,000      —8,264      —28,264      —43,501      +15,237

The saving was due to the purchase of a smaller quantity of stores with a view to reduce the accumulated balance of General Stores and to larger issues from stock over and above the actual purchase during the year.

The reduction of Rs. 43,501 by reappropriation sanctioned on different dates resulted in the uncovered excess of Rs. 15,237.

## NOTES.

1. D. 2.—An estimate amounting to Rs. 10,782 was sanctioned by the Government of India for improving the compressed Air Service in a Salt Mine. Against this an expenditure of Rs. 12,322, was actually incurred but when the excess over the estimate was brought to the notice of the Divisional Officer, he transferred, pending completion of certain tunnelling work at the bottom of the incline, materials to the extent of Rs. 2,126, to the General Stores. When the necessity for postponement of the work came to the notice of the Divisional Officer, the proper course for him would have been to revise the estimate in accordance with the rules contained in the Central Public Works Department Code. Moreover the original estimate provided for materials to the value of Rs. 8,289 but the value of the materials consumed on the project actually executed excluding the materials transferred to General Stores was Rs. 9,111. The irregularity was pointed out to the Government of India, who sanctioned a revised estimate for Rs. 10,196, and characterised the original estimate as defective and the subsequent action of the Divisional Officer as irregular.

2. *Losses.*—A. 1 (4).—Rs. 9,611, represent loss written off in connection with the sale of office buildings at Agra to the United Provinces Government.

A. 2 (4) (b).—Includes Rs. 24,518, representing losses written off on account of (i) disposal of unserviceable Plant and Machinery (Rs. 8,397), (ii) dismantling and sale of buildings (Rs. 16,109) and (iii) petty items (Rs. 12).

A. 4 (4).—Includes Rs. 692, representing losses written off in connection with the disposal of unserviceable stores in the General Stores.

B. 4.—A large sum of money on account of pay of establishment was received in a Salt Circle on the 10th January 1929, and every precaution was taken for the custody of the treasure chest in which the money was kept. But in spite of the precautions the treasure room was broken into on the same night and the treasure chest containing Rs. 2,664, removed. On investigation by the Department and the Police it was found that the theft was committed with the connivance of some men belonging to the Department. The burglars were traced by the Police and convicted and sentenced by a Court of Law to 5 to 7 years' rigorous imprisonment with a fine of Rs. 500 each or 3 years' further imprisonment in default—the fines on realisation to be paid to the Department, as compensation. One peon and one havildar of the Department who were found to be implicated in the case but against whom evidence was not sufficient for a judicial conviction were dismissed from the service. Three Sentries on guard duty who were found to be guilty of some neglect of duty were also dismissed. The fine not having been realised so far the loss was written off under the orders of the Government of India.

The total loss for the Department under all the heads come to Rs. 37,485.

*Observations.*

The value of the closing balance represents the gross value inclusive of duty calculated at Rs. 1-4-0 per maund. The net value is—

Madras Rs. 1,04,165 : Bombay Rs. 6,14,641 and Burma Rs. 12,925.

*Audit Certificate.*

*Madras.*—The stock accounts of Government owned Salt at the fifteen factories where it was stocked were test examined during the year under report and the results were satisfactory.

H. B. RAU,

*Accountant General, Madras*

*Bombay.*—The stock account of salt at Kharaghoda was audited by the staff of the Accountant General, Bombay, and the balance of salt in the Depot (viz., 22,65,119 maunds) on 31st March 1930 was found to be correct. The stock accounts of Maurypur Dilyar and Suran salt Depots in Sind with an aggregate closing balance of 1,87,456 maunds have not so far been audited.

R. L. Mc. KERNAN,

*Accountant General, Bombay.*

*Burma.*—Certified that the accounts have been audited and found correct.

H. M. ROY,

*Deputy Accountant General, Burma.*

## NOTES.

1. The stocks of salt in the several factories in Madras were verified by the Factory Officers concerned on the 31st March 1930 and they were reported to be correct.

2. For the salt work in the Bombay Presidency (Proper), the stock was verified by the Manager, Main Salt Stores, Kharaghoda, who is in charge of the Stores. No stock verification was done for the Salt works in Sind.

3. In Burma Government Salt was weighed into store by a Factory Officer and has not since been verified or revalued.

\*Includes duty free issues for fish curing and industrial purposes and for supply to French Government.

†Includes 1,583 maunds issued free to Indian States under Treaty obligations; 5,400 maunds issued to Kharaghoda Refinery on payment of cost price subject to the payment of duty at Rs. 1-4 per Bengal Maund on the refined product (5,248 maunds were refined during 1929-30); 3 maunds sent as sample to the Commissioner, Northern India Salt Revenue, Delhi; 13,146 maunds issued at special prices of annas 3 per maund to His Highness the Mir of Khalapur under treaty arrangements; 28,440 maunds at Rs. 0-2-2 per maund sent under Bond to Calcutta; and 8,764 maunds at Rs. 0-2-2 per maund issued to Moon Salt Company.

## IMPORTANT COMMENTS.

*Overestimating.*

The overestimating for the voted expenditure under this Grant has been serious and persistent, as the following figures indicate :—

| Year.           | Grant.  | Savings | Savings expressed as percentage of grant. | Lump sum deductions for probable savings shown in the appropriation accounts. |
|-----------------|---------|---------|-------------------------------------------|-------------------------------------------------------------------------------|
| 1925-26 . . . . | 1,11,26 | 20,40   | 18.3                                      | 5,27                                                                          |
| 1926-27 . . . . | 99,00   | 17,46   | 17.6                                      | 40                                                                            |
| 1927-28 . . . . | 87,33   | 7,65    | 8.7                                       | 1,86                                                                          |
| 1928-29 . . . . | 80,57   | 3,00    | 3.7                                       | 3,30                                                                          |
| 1929-30 . . . . | 86,05   | 4,84    | 5.6                                       | 3,29                                                                          |

This persistency is further traceable over certain sub-heads and classes of expenditure as shown in the following lists of savings.

## ACCOUNT I.—NORTHERN INDIA SALT REVENUE.

| 1925-26 . . . . | 3,03                  | 59                     | 59             | 64                              | 6,25                       |
| 1926-27 . . . . | 2,54                  | 86                     | 49             | 1,21                            | 34                         |
| 1927-28 . . . . | 1,85                  | 13                     | 45             | 7                               | 2,43                       |
| 1928-29 . . . . | 79                    | 75                     | 17             | 20                              | 1,40                       |
| 1929-30 . . . . | 1,31                  | 3                      | 47             | 33                              | 2,29                       |

In particular it may be mentioned that though the explanations of the last four years explain the savings under sub-heads D.-2 and D.-4 of Account I (Northern India Salt Department, Plant and Machinery and Works) as in part due to the disposal of certain assets the original estimates for those years do not appear to have taken into consideration the possibility of disposal of any assets under these heads [As the sub-heads concerned are under a Capital Head the book value of all assets disposed of has to be written off the capital head, any loss on disposal being debited to the related revenue head—compare the explanation under sub-head A.-2(4) (b)].

The estimating of the non-voted charges has been accurate as the savings come to only 0.03 per cent. of the final appropriation as against an excess of 0.61 per cent. in the previous year

## NOTES.

Subhead D. 6. The subhead includes an expenditure of Rs. 273 only on erecting boiler and Electric Generating plant at Ghazipur Opium Factory; Estimate of work is Rs. 58,402; expenditure to end of 1929-30, Rs. 56,994; completed. No provision having been made in the original budget, expenditure to the extent of Rs. 236 was covered by reappropriation, the balance i.e. Rs. 37 remained uncovered.

Losses.—A sum of Rs. 1,384 being the value of 155 unserviceable plywood Provision Opium Chests was written off by the Government of India in July 1929.

The value, viz., Rs. 6,031, of 4,781 unserviceable opium and trash bags was written off by the Government of India in November 1929. They were worn out by fair wear and tear.

A sum of Rs. 3,767 being the value of surplus and unserviceable articles was written off by the Government of India in May 1929.

## IMPORTANT COMMENTS.

*Over budgeting.*

The total voted savings under this Grant for four consecutive years are as below, which indicate the tendency to over-budgeting on the part of the Department though possibly the gradual but substantial reduction in expenditure may be in part responsible for this. If a closer estimating is not possible, a suitable lump cut for probable savings seems necessary.—

| Year.             | Grant.      | Saving.   | Percentage<br>of<br>Saving. |
|-------------------|-------------|-----------|-----------------------------|
|                   | Rs.         | Rs.       |                             |
| 1926-27 . . . . . | 1,52,96,000 | 53,87,156 | 35                          |
| 1927-28 . . . . . | 89,14,000   | 3,48,189  | 4                           |
| 1928-29 . . . . . | 79,73,000   | 26,58,646 | 33                          |
| 1929-30 . . . . . | 70,14,000   | 22,16,654 | 31                          |

It will be noticed that 96 per cent. of the final savings, which actually accrued, were surrendered to Government and duly accepted.

**NOTES.**

The difference between item 2 and sub-head "A" in the Appropriation Account represents payments on account of Joint Opium Officer's establishment, railway freight and other incidental charges and is also partly due to the adjustment of recoveries within the year.

Item 5 was partly adjusted by short payment of the price of opium delivered in 1930-31 during the season ending 30th June 1930.

**NOTES.**

The difference between the figures in item 2 and that against sub-head B. 1 in the Appropriation Accounts is mainly due to the charges for bonus being included in the latter and to adjustments of cash recoveries within the year.

Advances are made during the monsoon for opium, leaves and trash to be delivered at the beginning of the next hot weather. This accounts for the outstanding on 31st March 1930.

Represents recovery from the Posts and Telegraphs Department on account of the share of the cost of Reserve Stamp Depot at Calcutta which stocks postage stamps and postal stationery. No provision could be made as the decision of Government to effect the recovery was received in August 1929. The saving was formally reported to the Government of India but the amount was not surrendered owing to misapprehension.

### IMPORTANT COMMENTS.

#### *Defective Control over expenditure.*

Sub-head F.-1.—It is stated that the Master, Security Printing, who is responsible for watching the expenditure against appropriation, was requested in January 1930, to take steps to obtain necessary funds to cover the expenditure incurred under the non-voted and voted sections of the sub-head. The officer, however, declined to do this on the ground that as the concern paid to Government leave contribution, no further provision for leave salary was necessary. The Master's contention was not correct and the matter was reported to the Government of India in February 1930, but no funds appear to have been sanctioned to meet the excesses.

#### *General.*

The large voted saving of Rs. 18,999 represents 82.6 per cent. of the total grant and is mainly due to the recoveries in the accounts of the Pay and Accounts Officer, Miscellaneous Central Departments, *vide* subhead A.-6.

## IMPORTANT COMMENTS.

The voted savings under the Grant for the last few years are as follows :—

| Year.             | Grant. | Saving. | Percentage<br>of saving. |
|-------------------|--------|---------|--------------------------|
| 1925-26 . . . . . | 6.83   | 33      | 5                        |
| 1926-27 . . . . . | 8.69   | 1.87    | 21                       |
| 1927-28 . . . . . | 7.53   | 65      | 9                        |
| 1928-29 . . . . . | 7.63   | 53      | 7                        |
| 1929-30 . . . . . | 8.32   | 85      | 10                       |

Out of the total saving of 85 in 1929-30, savings aggregating 65 were surrendered to Government. The final saving was, therefore, about 2 per cent.

2. It appears that savings are persistent under certain sub-heads, viz., B4 and E, as indicated below :—

Excesses in the North West Frontier Province (Rs. 4,383) and in Baluchistan (Rs. 3,947) were due to distribution of charges on a *pro rata* basis. In the latter case certain articles of Tools and Plant not provided for in the budget were purchased during the year.

|----------------------------------------------------|-------|-------|---------|-------|---------|

Excess occurred mainly in the North West Frontier Province (Rs. 4,536) and was due to distribution of charges on a *pro rata* basis. The uncovered excess was due to a combined reappropriation having been made for Subheads E. 1. and E. 2. in the North West Frontier Province under the impression that expenditure would be exhibited together as in the past.

Excess of Rs. 1,93,033 occurred in the North West Frontier Province due to the fact that in the Book of Demands for 1929-30 the *net* expenditure only (inclusive of anticipated recoveries) was provided for instead of the *gross* expenditure. The decision of the Government of India on the subject reached the Irrigation Secretariat too late to arrange for funds.

*Observations.*

1. The stock materials in hand were verified by the Executive Officers of the Public Works Department and priced within market rates. Values written off as losses on stock, Rs. 6,072 (Rs. 5,769 in Malakand Division and Rs. 303 in Swabi Division).

2. The Executive Engineer Irrigation Department States that there was no obsolete stock and that the stock was counted during the course of the year and found correct. The stores were certified to be in good condition and priced within market rates. The closing balance was in excess of the reserve limit (Rs. 4,754) by surplus stock worth Rs. 1,009 which was available for sale or transfer.

**IMPORTANT COMMENTS.**

The excess in the voted section of the Grant represents about 12 per cent. of the final grant, against about 4 per cent. in 1928-29, and is mainly due to large excesses under sub-heads F.1 and F.2, owing to *net* expenditure having been provided for instead of *gross*.

The apparent excess is due mainly to the fact that the half yearly and the advanced interest on the 2nd issue of the 5 per cent. 1935 Bonds amounting roughly to Rs. 28 lakhs, provision for which was made under the head "A. 4.—Reserve provision for service of New Loan", was booked under this head. When the revised estimates were framed it was thought that it would be possible to find out the expenditure in respect of the 2nd issue of 1935 Bonds, but it was later found that the interest payments on 1935 Bonds as a whole were recorded under one head and that the maintenance of separate accounts for the 2nd issue would have caused unnecessary work in Accounts offices.

After allowing for this special factor, the excess of Rs. 7 lakhs represents the payment of arrear interest to a larger extent than was anticipated. The arrear payments pertain to 6 per cent. Bonds 1930 and 1931, 5 per cent. 1929-47, 4½ per cent. Bonds 1934 and 4 per cent. Loan 1960-70 to the extent of Rs. 1,12,632, Rs. 70,061, Rs. 56,697, Rs. 69,682, Rs. 4,06,091 respectively. Revised was framed on a conservative basis in view of the trend of actuals.

Provision was made under this head for the entire amount of the half-yearly and advance interest on the 2nd issue of the 5 per cent. 1935 Bonds as well as on the 1939-44 loans (1,12 lakhs) less Rs. 12,74,000 assumed to remain undrawn during the year. If allowance is made for the excess referred to under head A.1, the actuals tend to show an excess over the Revised estimate of about 9 lakhs, which is chiefly due to the fact that Rs. 12,74,000 assumed as undrawn interest on the new loans did not materialise.

## NOTE.

Sub-head G. Voted contributes to the excess in the voted section of the Grant.

(a) Sanctioned on 2<sup>nd</sup> March.(b) Voted by the Legislative Assembly on 31<sup>st</sup> March.

## IMPORTANT COMMENTS.

*Audit Certificate.*

*Sub-heads F. and G.*—The total expenditure on Appropriation for Reduction or Avoidance of debt under sub-heads 'F—Sinking Funds' and 'G—Other appropriations' comes to 5,73,73 (thousands). Under the Finance Department Resolution of the 9th December 1924, an annual charge is made against ordinary revenues for the Reduction or Avoidance of debt of 4 crores *plus* one eightieth of the excess of debt outstanding on the 31st March of the previous year over the similar debt outstanding on the 31st March 1923, sterling debt being converted at Rs. 15 per £. for this purpose. Advances to Provincial Governments other than those representing pre-Reform Irrigation Debt are not here considered as forming part of the outstanding debt. Under the Finance Act of 1926 an additional charge representing the net share of the Government of India of reparation receipt is also made to this head. The total charge of 5,73,73 has been accepted in audit as correctly calculated according to these orders. Of the total amount 32.98 (thousands) represented reparation receipt.

Due to economy (Rs. 704) and free carriage of office records in special circumstances (Rs. 1,180). The final excess of Rs. 495 remained uncovered due to the fact that it was not known to the Private Secretary to H. E. the Viceroy that the advance drawn in March 1930. to meet the contingent expenditure in connection with the move of the office to Simla in April 1930 was, under Rules, finally chargeable against the grant for 1929-30.

## IMPORTANT COMMENTS.

*Over-budgeting.*

Total voted savings in recent years under sub-head "E. 5—Postage and Telegrams" indicate that the over-budgeting has been persistent :—

| Year.             | Grant. | Saving. | percentage<br>of savings. |
|-------------------|--------|---------|---------------------------|
| 1925-26 . . . . . | 90     | —19     | 21                        |
| 1926-27 . . . . . | 65     | —14     | 21                        |
| 1927-28 . . . . . | 65     | —26     | 40                        |
| 1928-29 . . . . . | 55     | —9      | 16                        |
| 1929-30 . . . . . | 55     | —15     | 27                        |

The savings in the Grant as a whole have exceeded 8 per cent. in the last four years.

In the Non-voted section the excess of 29 over the final appropriation was due to increased expenditure under sub-head "G.-1, Special trains and steamers and haulage of Saloon carriages.". Excess generally accrue under this sub-head as the following statistics show :—

|                   | Appropriation. | Excess. |
|-------------------|----------------|---------|
| 1926-27 . . . . . | 2,46           | +58     |
| 1927-28 . . . . . | 3,27           | +24     |
| 1928-29 . . . . . | 2,95           | —16     |
| 1929-30 . . . . . | 3,10           | +34     |

Mainly under cost of books and publications. It was expected that some more volumes of the revised Aitchison's Treaties would be published and distributed during 1929-30, which, however, did not materialise. Rs 10,000 was reappropriated to other sub heads on 31st March which resulted in the uncovered excess.

## IMPORTANT COMMENTS.

*General.*

Although there have been small final excesses over both the non-voted and voted appropriations, the estimating and control on the whole, represent an improvement over those of previous years. It will be seen, however, from the explanation under sub-head B. 4.—Contingencies that there was a failure to anticipate provision for some liabilities which had been incurred.

| <p>The supplementary grant was obtained to meet anticipated excesses in other civil Account offices as the lump cut of Rs. 1,60,000 (Sub-head J) for probable savings was not expected to be realised to the full extent. The final saving, after meeting the demands of several offices, was retained as a set off against the lump cut. The final savings which eventually accrued in Bombay and in the Office of the Auditor General (Sub-head A. 2) indicate that there was no real need for additional allotments from the "Reserve". In the Punjab the additional allotment obtained out of the "Reserve" was, however, justified in view of the fact that the actual savings did not materialise to the extent of the cut of Rs. 50,000 made for probable savings in the estimates of that Circle.

## IMPORTANT COMMENTS.

### *General.*

1. The original estimate for Voted expenditure was 1·5 per cent. short of requirements. With the supplementary grant of Rs. 2,43,000 obtained in February 1930, the excess was converted into a saving of 1·2 per cent. of the final grant, against 3 per cent. in the previous year. In the Non-voted Section of the Grant the saving during the year under report represents about 2 per cent. of the final appropriation against an excess of 0·5 per cent. in the previous year.

2. A. 2, & J.—Voted.—A supplementary grant for Rs. 78,000 was obtained under the Sub-head "A. 2. Pay of Establishments" to meet the lump cut for probable savings. As suggested in paragraph 28 of my Report for 1927-28 the supplementary appropriation might suitably have been taken (as was also approved by the Auditor General in paragraph 13 of his comments on the Report) against the specific subhead 'Deduct—Probable Savings'.

The final large savings under the Voted Section indicate that the supplementary grant for Rs. 78,000 obtained in February 1930, proved unnecessary.

## GRANT No. 43.—ADMINISTRATION OF JUSTICE.

ACCOUNT of the Sum Expended, in the Year ended 31 March 1930, compared with the Sum Granted, to pay the Salaries and other Expenses for the ADMINISTRATION OF JUSTICE.

The supplementary grant was obtained to meet the expenditure on account of an honorarium of Rs. 5,000 to a retired Officer of the Bengal Government. This charge was, however, correctly debitable to subhead D and has been accounted for thereunder.

Under "cost of Policeguards" employed in escorting cash from Almora to the Imperial Institute of Veterinary Research, Muktesar.

A large number of pilots was on leave out of India (Rs. 38,500) and the pay of some voted officers was provided under this head (Rs. 26,500). An anticipated saving of Rs. 51,600 was reported by the Bengal Government to the Government of India in December 1929. Out of this, a sum of Rs. 50,000 was set off against the probable saving under subhead 'O.'

## IMPORTANT COMMENTS.

### General.

The saving in the Voted grant which comes to about 3 per cent. is mainly due to delay in establishing the Central Mercantile Marine Department at Bombay, Karachi and Madras.

In the Non-voted section the saving is about 3.8 per cent. and is chiefly due to the additional funds obtained for the payment of Burma allowance not having been fully utilised.

### Sanction to reappropriation.

It will appear from the footnotes showing the dates of sanction to certain modifications in the non-voted appropriations relating to some sub-heads

under the grant [*e.g.*, C1(3), C3(3), etc.], that the dates of sanction differ from the dates on which they were communicated by the Government of India, Finance Department.

It appears that some of the modifications were actually sanctioned by the Government of India, Commerce Department under their own powers, but were communicated to audit through the Government of India, Finance Department.

It seems desirable that only those modifications, which are not within the competence of the Commerce Department to sanction, should in future be communicated through the Government of India, Finance Department so as to secure uniformity in the exhibition of these modifications in the Appropriation Accounts as suggested in my comments below the Account for Ecclesiastical. Strictly speaking too, copies of sanctions endorsed by the Finance Department after the close of the year should not be treated as amounting to sanction by that Department (and exhibited in column 2 of the appropriation account), as modifications cannot be sanctioned after the financial year has closed.

| The saving is mainly due to (a) pay of the Inspector of Light Houses (Head Quarters) being treated as "non-voted charge" (Rs. 12,000), (b) non-appointment of the Inspector of Light Houses Rangoon during the course of the year (Rs. 12,000) and (c) late appointment of the two Foremen mechanics, and their pay not being charged to this head as they were classified as non-gazetted officers. |                         |                        |                  |                                                     |                                  |

| The basis on which the contribution was to be calculated not being settled at the time of the budget, an exact estimate could not be framed. The reappropriation of Rs. 15,200 was not utilised due to the decision that the Lighthouse Department should pay pensionary contributions only in respect of the staff as from the 1st April 1929, <i>i.e.</i> , the date of commercialisation of the Department. As the decision was arrived at after the close of the year the final saving could not be surrendered. |                              |                             |                       |                                                             |                                         |

| Due mainly to the payment of Rs. 2,285 to the Port Trust, Karachi, being the amount drawn from the Treasury for payment to the Port Trust defalcated by a clerk in the Office of the Port Officer Karachi in 1927-28. The excess was partially counterbalanced by a saving of Rs. 1,670 owing to the non-utilisation of the provision for telephone rent, the expenditure thereon having been debited under "D. 1 (3)". The additional appropriation which was intended to meet extra expenditure on stores, repairs, etc., proved largely unnecessary. |                         |                        |                       |                                                        |                                         |

The additional appropriation was obtained to meet extra expenditure necessitated by the vessel remaining in dock longer than anticipated, and proved unnecessary as savings accrued in the original provision owing to smaller expenditure on rations.

## NOTES.

"B. 1. Pay of Establishments" and "B. 7. Deduct—Establishment charges, etc."—The final excess under the former and the unrectified saving under the latter were due to failure to secure necessary provision of funds by reappropriation during the year under both the heads though the adjustment was anticipated in January 1930.

G. 2 (7).—The savings suggest that a larger amount could have been offered for surrender.

## IMPORTANT COMMENTS.

The voted excess during the year is about 25.5 per cent. of the total grant and indicates defective budgeting and control. The failure in estimating the requirements under sub-head A.-13 either originally or subsequently is mainly responsible for the excess under the Grant.

In the non-voted section also the excess represents about 6 per cent. of the final appropriation and is contributed chiefly by the uncovered excess of Rs. 3,880 under sub-head A.-12.

2. This was the first year of the new Grant, which possibly accounts for the defective budgeting mentioned above.

| Due to smaller expenditure on daily rates and rail fare on account of abandonment of surveys in Mari-Bugti area in the North-West Frontier (about Rs. 12,000), shorter field season in the Eastern Circle areas (about Rs. 5,000) and marching of khalasis in Burma instead of going by rail and steamer (about Rs. 9,700). ## NOTES.

1. *Losses*.—Rs. 608, representing mainly the value of certain articles lost or stolen, were written off.

2. The reappropriations under Subheads E. 2 and E. 12 sanctioned on 25th March proved insufficient.

3. B. 5.—The provision of 6,000 for petty construction and repairs was reappropriated to the Subhead D. D. Works. The reduced grant was subsequently augmented in February 1930 by a reappropriation of Rs. 8,100 in the circumstances explained below. On the advice of the Controller of Printing and Stationery it was contemplated that the Printing Office at Dehra Dun should be remodelled and equipped with better type of printing materials and the necessary grant was reappropriated to this head to meet the anticipated expenditure. Owing to financial stringency, however, the idea did not materialise and the reappropriation proved unnecessary.

4. E. 8.—The Military authorities agreed to contribute a sum of Rs. 30,000 to cover the cost of 2 rotary offset printing machines for the rapid production of maps required on mobilisation and the reappropriation was sanctioned by Finance Department on 27th November 1929 to cover the cost. The reappropriation ultimately proved to be unnecessary as excess occurred in the original grant.

5. E. 16.—Till late in the financial year, the demand for these articles showed a tendency towards decrease and consequently it was anticipated that the estimated amount of recoveries would not be realised. The reappropriation was accordingly sanctioned on 25th March 1930. But these anticipations did not prove to be correct.

## IMPORTANT COMMENTS.

The original estimate for the voted expenditure under the Grant, which included a lump cut of Rs. 3,50,000 for probable savings, was about 3 per cent. short of requirements. With the supplementary grant of Rs. 1,97,000 obtained in February, 1930, to restore in part the lump cut, the excess was converted into a saving of 3 per cent. of the final grant due mainly to reduced expenditure of about Rs. 1,10,000 under sub-head "F—English Charges (High Commissioner) on Stores".

2. In the non-voted section the result is not so satisfactory—the excess over the final appropriation being 4 per cent. during the year under report against a saving of 2 per cent. in 1928-29. This result is contributed mainly by (i) the nonrealisation of the lump cut of Rs. 22,000 made for probable savings and (ii) increased expenditure on cost of passages (*vide* sub-head D.-3). The probability of the excess under the latter, it is stated, was reported to the Government of India but an additional appropriation was not sanctioned.

The supplementary grant was voted by the Legislative Assembly to meet certain expenditure relating to the provision of meteorological facilities in connection with Civil Aviation, and restore the original lump cut. Of the net grant a sum of Rs. 6,600 was subsequently surrendered on account of postponement of trial flight of airship and the balance was reappropriated to other subheads. See Comments.

### IMPORTANT COMMENTS.

#### General.

The supplementary grant of 1,16 was, according to the Book of Supplementary Demands for Grants, to be accounted for under the sub-head 'O' against which it is shown in the account. It would have been more proper if the surplus over the original lump sum cut for probable savings had been shown in the details of the demand as accountable under the various sub-heads concerned, *viz.*, A.1, A.2, A.5, E.3, J.1, J.2, K, L, M and N, but the Government of India orders to the effect that supplementary demands should specify amounts required in details of sub-heads had not been issued by the time the supplementary demand was made.

| Due to (i) the fact that the plates for the publications of the Sanchi Monograph entrusted to a firm in Paris were not reproduced (Rs. 7,300) and (ii) non-utilisation of the full provision for cost of free distribution of Archaeological publications as certain publications, which were expected to be published during the year, were not issued (about Rs. 33,500). A saving of Rs. 15,580, which could not be foreseen earlier, was surrendered to Government on 10th March, but was not accepted. |                              |                             |                    |                                                             |                                         |

## NOTES.

D. 1.—The detailed estimates did not specify the various works concerned but the only important major work under the subhead was the conservation of the Rhotasgarh Fort, details for which are as follows:—

Estimate Rs. 59,692 (including supplementary estimates aggregating Rs. 6,218 sanctioned by the Local Government on 21st January 1930): expenditure to end of March 1930, Rs. 50,997; balance Rs. 9,595; in progress.

Losses.—D. 2. Includes Rs. 347 representing value of 31 Notice Boards intended for use on Archaeological Monuments which were found unserviceable.

## IMPORTANT COMMENTS.

*Over-estimating.*

The savings in the voted Grant for the last few years have been 1925-26, 4 per cent; 1926-27, 2 per cent; 1927-28, 7 per cent; 1928-29, 8 per cent and 1929-30, 7 per cent. The savings have been principally under the following two sub-heads, against which the actual amount of the savings from year to year is indicated—

All the Appropriation Accounts from 1925-26 onwards (including the present one—*vide* explanation (1) under sub-head E.-1, contain a reference to the non-utilisation of, or failure to use in full, the provision for the publication of the Sanchi Monograph.

It will be seen, however, from the explanation under sub-head F. 4 that some of the activities of the Department had to be curtailed at the request of the Government of India.

*Occupation, without proper sanction, of Government Buildings for residential purposes without payment of rent.*

2. In the course of the local audit of the accounts of a certain Circle Office of the Archæological Department, it was observed that the then Superintendent of the Circle was using, with the approval of the Head of the Department, one of the Archæological buildings, which was a furnished one, as his private residence without payment of any rent from April 1928. He continued to occupy it till the 8th December 1929 when he was transferred and his successor has been occupying it since the 9th December 1929 without paying any rent. Two other buildings were also being occupied, free of rent, by two non-gazetted subordinates, one from December 1927 and the other from October 1928.

The Department was requested to have the rents of the buildings assessed and to collect rent at the assessed rate from the occupants. The Head of the Department, however, reported to the Government of India that the building occupied by the Superintendent, which was not suited for residential purposes, was intended to be preserved as an Ancient Monument and would be vacated on the completion, in 1931, of a lay-out scheme which was in progress and that the other two buildings would then be demolished. He also stated that the occupation of the buildings by the officers was in the interest of Government work and recommended that they should be allowed to occupy them rent-free.

The Government of India have, however, decided that rent at the rates noted below should be recovered from the Superintendent and the two non-gazetted assistants with effect from the 1st August, 1929 :—

Rs. 30 p. m. from the Superintendent,

Rs. 12 p. m. from one assistant, and

Rs. 8 p. m from the other assistant. (S.).\*

## IMPORTANT COMMENTS.

*Bose Research Institute.*

During the year under report the Bose Research Institute of Calcutta received a total grant of Rs. 3,03,000 which comprises the following :—

- (i) An annual recurring grant of Rs. 1,00,000, the condition attached to the grant, which is made for scientific investigation generally, being that the grant for any one year should be in the proportion of two to one of the income actually derived from private sources. The income from private sources is verified by the Accountant General, Bengal with reference to the Imperial Bank Pass Book, before the payment of the grant is made.
- (ii) An annual grant of Rs. 3,000 for the specific purpose of printing the transactions of the Institute.
- (iii) A non-recurring grant of Rs. 2,00,000 sanctioned for the extension of the Laboratory and other buildings connected with the Bose Research Institute.

2. Separate accounts in respect of each of the above grants, together with a fourth account showing the income derived from private sources, are appended.

3. The account in respect of the annual grant of Rs. 3,000 shows the transactions for two years, 1928-29 and 1929-30. The Director has a running account with a London Publisher from whom detailed accounts are not generally received by the time the yearly accounts are audited and hence the difficulty in incorporating this account in the account of the yearly grant.

*Central Museum.*

4. The Committee on Public Accounts in paragraph 111 of their proceedings on the Appropriation Accounts for 1928-29, desired that an account of the receipts and expenditure of the Museum should be appended to the Appropriation Accounts. An Account of the receipts and expenditure of the Museum for the year 1929-30, in two parts—one for the office of the Trustees, Indian Museum, and the other for the Art Section and Art Gallery of the Museum—is appended to the Appropriation Account for 1929-30.

The Account has been audited by the Examiner, Outside Audit, Bengal and found to be correct.

| The whole of the provision, which was intended to meet contribution payable to the Bombay Government on account of Customs samples tested by the Chemical Analyser, Bombay, remained unutilised as the orders fixing the share payable by the Central Government were not received in time to include the adjustment in the accounts for 1929-30. The matter is still under reference to the Local Government. |                         |                        |                      |                                                                           |                                       |

## IMPORTANT COMMENTS.

The Voted saving under the Grant during 1929-30 represents about 13 per cent. of the final grant, against 2·4 per cent. in the previous year. The savings which accrued chiefly under sub-heads A.-3 (Rs. 11,771) F.-3 (Rs. 24,052) and G. (Rs. 37,304) and the non-utilisation of the provision (Rs. 25,000) under sub-head C.-2 (2) are responsible for the high percentage of saving in the year under report.

The excess over the final appropriation in the Non-Voted section of the Grant during 1929-30 represents about 1·4, against a saving of 1·5 per cent. in the previous year. The uncovered excesses under certain sub-heads, *viz.*, A.-3, A.-4, B.-2(1) and D.-2, appear to indicate the need of a closer watch over anticipated liabilities and progress of expenditure.

Officer in charge, X-Ray Institute.

## NOTES.

1. The X-Ray Institute, Dehra Dun, having been closed with effect from 1st April 1930, the Director General, Indian Medical Services did not consider it necessary to carry out any inspection of the Store Accounts before the stores are finally disposed of. The *pro forma* accounts of this Institute have, therefore, been exhibited this year unaudited.

2. In paragraph 42 of the Auditor General's letter containing comments on the Appropriation Accounts for 1928-29, the Auditor-General commented upon the present form of the *pro forma* Accounts of the Institute, which do not show the exact financial results of the stores in the Institute. The question of suitably revising the present forms of the Institute, was discussed by the Committee on Public Accounts in 1930 (*vide* paragraph 664 of their Report). The Director of Commercial Audit was accordingly addressed on the subject and that officer suggested certain revised forms for adoption. Officer in charge of the X-Ray Institute, who was requested to comment on the suitability of the new forms suggested by the Director of Commercial Audit pointed out certain difficulties in the adoption of the revised forms and explained that for that reason and as the Institute had already been officially closed down the introduction of the new forms would serve no useful purpose. The question of obtaining permission for the introduction of revised forms was not therefore proceeded with and, it is hoped, the statement below showing the amount of *net* loss will be considered sufficient pending the final liquidation accounts.

The following statement shows the amount of *net* losses incurred in 1928-29 and 1929-30 relating to stores of the X-Ray Institute :—

The heavy loss in 1928-29 is mainly due to surplus stores of the Institute worth Rs. 91,330 having been issued free to various Government Institutions and their value written off by the Government of India.

## IMPORTANT COMMENTS.

*General.*

The Voted saving during the year under report represents 2·2 per cent. of the final appropriation, against 3·2 per cent. in the previous year.

2. In the Non-voted section of the Grant, however, the saving comes to about 13 per cent. of the final appropriation, against 4 per cent. in 1928-29. This unsatisfactory result is contributed mainly by inadequate control of expenditure under sub-heads C.-2(1) and C.-2(7).

3. Sub-head C.-1(3).—Expenditure on the items referred to in the explanation was specifically provided for as new items with the previous approval of the Standing Finance Committee. A sum of Rs. 11,125 only, out of Rs. 17,275 entered in the estimates for the purpose, was surrendered to Government. The schemes originally submitted to the Standing Finance Committee were apparently not sufficiently carefully thought out and part of the provision earmarked for a specific purpose was utilised on other objects of expenditure instead of being surrendered.

## NOTES.

SUB-HEAD F.—The refunds made by the Indian Central Cotton Committee correspond to the drawings from the treasury, less cost of passages and leave salary which are borne by Government against leave and pension contributions and passage pay paid by the Committee.

Under non-voted and voted heads the Appropriation and expenditure compare as below:—

2. SUB-HEAD P.—No important major work was executed during the year.

3. Losses aggregating Rs. 17,412 occurred under the various subheads of this grant. Each of the component items was below Rs. 5,000 except one of Rs. 9,900 (Subhead H 4) representing the value of thirteen cattle which died of rinderpest and other diseases.

(a) There was no provision during the year on account of cost of passage or leave salary under the non-voted head. Rs. 428 represents travelling allowance of non-voted officers pertaining to 1928-29 which was refunded in 1929-30.

(b) The provision of Rs. 1,200 represents the net charge to Government on account of leave salary. Against this provision the expenditure amounted to Rs. 1,750 and was covered by the re-appropriation of Rs. 550 sanctioned on 29th March 1930.

## IMPORTANT COMMENTS.

*Over budgeting.*

The following table indicates the extent of the savings which have occurred against the voted Grant in previous years, also the amounts of lump cut for probable saving included in the original grants.

| Year.             | Original grant. | Saving. | Percentage of saving. | Lump cut for probable savings. |
|-------------------|-----------------|---------|-----------------------|--------------------------------|
| 1925-26 . . . . . | 13,42           | 1,16    | 9                     | ..                             |
| 1926-27 . . . . . | 15,02           | 2,24    | 15                    | ..                             |
| 1927-28 . . . . . | 15,15           | 1,31    | 9                     | 50                             |
| 1928-29 . . . . . | 15,28           | 8       | 0.5                   | ..                             |
| 1929-30 . . . . . | 32,69           | 3,03    | 9                     | 80                             |

The close estimating in 1928-29 appears to some extent to have been fortuitous as previous to that year charges in connection with the fumigation of American Cotton were met from fumigation receipts and the net receipts were credited in the accounts under the corresponding receipt head. The budget estimate of 1928-29 was framed on the assumption that this procedure would continue, but during the course of the year it was decided to debit such charges to sub-head M.-2, as a result of which there was an excess of 94 under the subhead, though the original Grant as a whole was sufficient to meet this extra charge.

It will thus be seen that the over-estimating has been substantial and persistent, indicating the necessity for a more drastic general cut for probable savings if the cut cannot be allocated to individual subheads or groups of subheads.

The large increase in expenditure in 1929-30 is connected with the Central Council of Agricultural Research for which the provision of 16,40 was made under subhead 0. The savings against this appropriation came to 51. If this subhead be omitted, the savings under the remaining subheads of the Grant come to 15 per cent. of the corresponding totals of appropriation.

In the non-voted section, however, the result is satisfactory; the saving being 2.8 per cent. of the final appropriation against an excess of 6.1 per cent. in the previous year.

*General Remarks.*

*Item No. 2.*—Due to (1) expenditure on the Jodhpur and Uterlai Aerodromes, being incurred by the Jodhpur Durbar (Rs. 49,000), (ii) low tenders being received for the cost of hangers than estimated, (Rs. 97,623) and (iii) postponement of certain works connected with the scheme (Rs. 56,316).

*Item No. 3.*—Due to certain Works connected with the scheme being undertaken by the Air Ministry and the payment made by the Secretary of State in England.

*Item No. 4.*—Due chiefly to the cost of acquiring land being less than originally estimated.

*Item No. 5.*—Due to the decision to acquire the whole area for the Aerodrome immediately.

*Item No. 9.*—Due to a decision not to debit the cost to civil aviation.

| Reduced charges under cost of priced publications (Rs. 23,000) due chiefly to a number of publications having not been completed and issued during the year as previously expected, economy in miscellaneous expenditure (Rs. 4,000), lower postage and telegram charges (Rs. 1,000) accounted for the saving. Rs. 11,000 was reported by the Director for surrender in March 1930 but was not accepted. |                              |                             |                       |                                                             |                                         |

#### *Over-estimating.*

The total voted savings under the Grant for 5 years are given below :—

| Year.             | Grant.   | Saving. | Percentage of saving. |
|-------------------|----------|---------|-----------------------|
|                   | Rs.      | Rs.     |                       |
| 1925-26 . . . . . | 2,37,000 | 36,267  | 15                    |
| 1926-27 . . . . . | 2,47,000 | 51,198  | 20                    |
| 1927-28 . . . . . | 2,59,000 | 39,747  | 15                    |
| 1928-29 . . . . . | 3,09,000 | 42,946  | 14                    |
| 1929-30 . . . . . | 3,13,000 | 45,586  | 14                    |

The savings are persistent and substantial, though the reason for them has varied from year to year.

## NOTE.

Total fees on account of registration of Joint Stock Companies during 1929-30 amounted to Rs. 2,45,199.

## IMPORTANT COMMENTS.

*General.*

There is a tendency to over-estimate the voted expenditure of this grant, particularly under sub-head 'A. Pay of Officers.'

Sub-head E.-2 Non-voted.—It is explained by the Central Pay and Accounts Office that the excess was foreseen and the controlling authorities were addressed in time to obtain supplementary appropriation. The controlling authorities, however, approached the Government of India so late that there was no time for any modification in the Appropriation.

## GRANT No. 67.—MISCELLANEOUS DEPARTMENTS.

## NOTE.

Total receipts on account of Patent fees realised during 1929-30 amounted to Rs. 1,97,905.

## IMPORTANT COMMENTS.

*General.*

The savings in the voted section of the Grant during 1929-30 is about 2 per cent., against 5.5 per cent. in the previous year, and indicates improvement in budgeting.

The non-voted excess during the year under report represents .8 per cent. of the final appropriation, against the saving of 1.4 per cent. in 1928-29, and was due to short recovery under sub-head G.-5.

(i) Voted by the Legislative Assembly on 18th February.  
(j) Voted by the Legislative Assembly on 1st March.

**Note 1.**—This statement represents consolidated figures relating to several organisations.

**Note 2.**—The figures included in the above statement represent audited figures.

*Note 2.*—The net loss shown in this account must not be regarded as a dead loss, since considerable assistance to, and encouragement of, the Indian Stores Department both directly by way of advice to manufacturers and by assisting them to find markets for their products, although the cost of these services cannot be segregated from the cost of the ordinary work of the Department.

The explanations of big variations are given below : --

*Head 1.*—Smaller expenditure due chiefly to (i) Grant of leave to officers out of India and drawal of their leave salary in England and (ii) Certain appointments having been kept vacant.

*Head 3.*—(a) Larger expenditure due chiefly to (i) creation of several new appointments and (ii) certain posts which remained vacant during 1928-29 having been filled up during the year under review.

*Head 3.*—The increase is mainly due to the grant of passage concession to certain officers of the Department.

*Head 3.*—The increase is mainly due to the extra cost of the Consulting Engineer's branch having been incurred for the whole year instead of 4 months as in 1928-29 and partly to larger expenditure under extra departmental inspections owing to the increased use of the services of the London Store Department for the inspection of materials in the country of origin.

*Head 8.*—Due to a larger number of officers having drawn their leave salaries from the Home Treasury, London, of the servants of the London Store Department for the inspection of materials in the country of origin.

*Head 8.*—Due to a number of officers having drawn their leave salaries from

*Head 11.*—Creation of several additional appointments required for the increase.

Delhi.

The improvement is due to (i) Clearance of the accumulations caused by the labour troubles during 1928-29 and (ii) increased activities of the Department.

## NOTES.

The figures shown in the Administration Report for 1929-30 represent actuals up to March, 1930 Preliminary while those in the Profit and Loss Account are final figures for the year and include adjustment made in March, 1930, Final and Supplementary.

## 2. The variations are explained below :—

## Debit side—

Heads 1, 2, 3 and 6.—Due to adjustments made in March 1930 Final and Supplementary.

Head 5.—Due to (a) adjustment made in March, 1930, Final and Supplementary (+Rs. 18,203),

(b) Inspection charges on stores which were not debited in the High Commissioner's Account (+Rs. 1,434), and

(c) Treatment of a further amount as Capital (—Rs. 1,100).

Head 7.—Due to (a) adjustment made in March, 1930, Final and Supplementary (—Rs. 24), and

(b) Treatment of a further amount as Capital (—Rs. 17,393).

Head 10.—Due to recovery of contribution in respect of an officer from another Government.

Head 11 and 12.—Due to the treatment of larger amounts as Capital.

Head 13.—The increase represents cost of additional standard forms.

## Credit side—

Heads 1 to 4.—Due to adjustment in March, 1930, Final and Supplementary.

3. The net result of these variations is that the loss in the Profit and Loss Account is, as compared with the corresponding figures in the Administration Report, more by Rs. 7,346.

Note 1.—This statement represents consolidated figures relating to several organisations.

Note 2.—The figures included in the above statement represent audited figures.

Note 3.—The net loss shown in this statement must not be regarded as a dead loss since considerable assistance to, and encouragement of Indian Industries is given by the Indian Stores Department both directly by way of advice to manufacturers and by assisting them to find markets for their products, although the cost of these services cannot be segregated from the cost of the ordinary work of the Department.

P. M. RAU,  
Audit Officer, Indian Stores Department.

Note 1.—This statement represents consolidated figures relating to several organisations.

Note 2.—The figures included in the above statement represent audited figures.

Note 3.—The net loss shown in this statement must not be regarded as a dead loss since considerable assistance to, and encouragement of, Indian Industries is given by the Indian Stores Department both directly by way of advice to manufacturers and by assisting them to find markets for their products, although the cost of these services cannot be segregated from the cost of the ordinary work of the Department.

P. M. RAU,

Audit Officer, Indian Stores Department.

Note 1.—This statement represents consolidated figures relating to several organisations.

Note 2.—The figures included in the above statement represent audited figures.

Note 3.—The net loss shown in this account must not be regarded as a dead loss since considerable assistance to, and encouragement of, Indian Industries is given by the Indian Stores Department both directly by way of advice to manufacturers and by assisting them to find markets for their products, although the cost of these services cannot be segregated from the cost of the ordinary work of the Department.

P. M. RAU,  
Audit Officer, Indian Stores Department.

## IMPORTANT COMMENTS.

*General.*

The saving in the voted expenditure in 1929-30 represents 7·6 per cent. of the final grant, against 10·99 per cent. in the previous year, and was mainly due to (i) non-introduction of a commercial system of accounting in the Currency Note Press (Rs. 1,71,000) and (ii) non-utilisation of the provision of Rs. 1 lakh made for the construction of the new Currency office in the Punjab as the plans and estimates were not ready.

The saving in the non-voted section comes to 5·4 per cent. of the final appropriation, against 3·2 per cent. in the previous year, and is mainly due to the provision for leave salary of officers in the Bombay Circle (sub-head C.-1) not having been utilised.

*Frauds and Embezzlements.**Defalcation of Currency chest balance.*

2. The Deputy Commissioner of a District while inspecting a certain Sub-Treasury in April 1929 found a shortage of Rs. 2,300 in the currency chest. The Sub-Accountant admitted misappropriating the amount and stated that he had deceived the Sub-Treasury Officer with faked entries and by forging his initials in the books. He was tried, convicted and sentenced to four years' rigorous imprisonment and to pay a fine of Rs. 2,000. A sum of only Rs. 831 which includes a security deposit of Rs. 500 was all that could be realised from him towards the loss and the balance of Rs. 1,469 has been ordered to be recovered from the Sub-Treasury Officer, whose lack of supervision and want of proper scrutiny of accounts and verification of balances greatly facilitated the misappropriation. The Local Government have punished the Sub-Treasury Officer further by reducing him ten places in his ranking list.\*

*Defalcation of a day's collection in a Sub-Treasury.*

3. The Sub-Accountant of a certain Sub-Treasury after sending his Potdar to the post office on the pretext of warning the Postmaster to remit his cash early that day absconded with the day's collection amounting to about Rs. 16,000. The disappearance of the Sub-Accountant was reported by the Potdar on his return to the Township Officer who after an examination of the accounts and cash reported the defalcation to the Deputy Commissioner. The absconding Sub-Accountant on his arrest the next day admitted his guilt and stated that he lost all the money gambling.

He was tried, convicted and sentenced to seven years' rigorous imprisonment, and to pay in addition a fine of Rs. 5,000 or in default to suffer an additional sentence of one year and nine months. On appeal to the High Court, the sentence of rigorous imprisonment was reduced to four years, but the fine and the imprisonment in default was maintained.

The defalcation was not due to any defect in system or rules. The Deputy Commissioner has, however, made suggestions to the Commissioner for the introduction of certain precautionary measures in future which he hopes will minimise the danger of such happenings. The final report of the Commissioner and the orders of the Government are awaited.\*

*Defalcation of Currency remittance.*

4. A certain Treasury noticed that the currency Chest slips received from a certain Sub-Treasury showed signs of erasures and warned the Sub-Treasury Officer. In a currency remittance of Rs. 2,25,500 received at the Treasury on the 20th March 1929, a shortage of Rs. 8,270 was found, the invoice

showing signs of erasure. The Currency Chest slip for 12th March 1929 which showed a balance of Rs. 2,25,500 also bore signs of erasure; so the Treasury Officer wired to the Sub-Treasury Officer on the 21st March 1929 asking him to state the balance for 12th March 1929. The Sub-Treasury Officer reported the balance as Rs. 2,17,400. The difference, viz., Rs. 8,100 found to have been embezzled after check by the Deputy Commissioner of the Sub-Treasury Accounts, together with Rs. 170 apparently extracted from the remittance prior to its despatch has been lost to Government. The loss is supposed to have been due to the Sub-Treasury Accountant who is *ex-officio* Treasurer altering the accounts (currency chest book and slips) after the Sub-Treasury Officer had passed them correctly. It is also supposed that the Accountant maintained two sets of accounts. It is alleged that the Accountant had access to the Treasury keys, and to the Strong Room when alone and that the Currency chest book supposed to be locked up in the currency chest was not so kept.

The Accountant concerned was tried and convicted. Final orders passed by the Local Government are awaited.\*

#### *Loss due to theft.*

5. A Sub-Treasury was closed from the 5th to the 12th February 1928, the Sub-Treasury Officer being absent on tour. When it reopened on the 13th transactions were heavy and there was no likelihood of the accounts being closed till very late in the evening. The Sub-Treasury Officer therefore decided to check the accounts and verify the cash balance the next day. The unverified cash balance amounted to over Rs. 20,000 and as it consisted entirely of notes, they were made up into bundles tied round the middle with a string, and under the personal supervision of the Sub-Treasury Officer deposited for the night on a table in the middle of the Strong Room, separate from the balance in the chest to avoid confusion.

The accounts were completed that evening by the Sub-Accountant who was the *ex-officio* Treasurer. The next morning the accounts were duly checked by the Sub-Treasury Officer and the Strong Room opened to verify the balance. It was then found that the notes were lying strewn all over the floor of the room, and when they were collected and counted, a shortage of Rs. 8,950 in hundred, ten and five rupee notes were found. Apparently the notes were raked off the table by a hook on the end of a pole passed through the bars of the door.

The Local Government held that the Sub-Treasury Officer committed several infringements of the fundamental provisions of Treasury administration, any of which was enough to condemn him as unfit to be entrusted with Government money and accordingly ordered that he be removed from the service of Government. The Sub-Accountant was tried and sentenced to undergo 5 years' rigorous imprisonment and to pay a fine of Rs. 3,000 in addition or in default to suffer 18 months' rigorous imprisonment.

Final orders of Government are awaited.\*

Reduced charges for the supply of electric energy chiefly contributed to the saving.  
The resultant excess was due to a book debit raised after the close of the year.

| The Supplementary grant was obtained as the Mints had to undertake more work than was provided for. The saving is due mainly to a sudden drop in business towards the close of the year and earlier stoppage of dollar coinage. |                              |                             |                       |                                                                    |                                  |

## IMPORTANT COMMENTS.

This is the first year, in recent years, in which an excess has occurred in the voted Grant. This excess is due largely to excesses under sub-heads C.—Loss on Coinage (Rs. 77,320) and B. 9—Contingencies (Rs. 44,747) of the Bombay mint. The loss on coinage represents the difference between the nominal value of defective coins and their bullion value on a basis of one rupee per tola for silver coins. The loss obviously fluctuates from year to year in a way which is difficult, if not impossible, to foresee when the budget is framed.

| Saving amounting to Rs. 1,05,529 occurred in Bombay as the work in connection with a club-house for Customs Officers at Matunga was postponed (Rs. 75,000) on account of plans and estimates having not been technically sanctioned, the balance being chiefly due to savings in the estimates of certain other works.                                                                                                                                            |                         |                        |                       |                                                                |                                    |

| Saving to the extent of Rs. 3,25,742 occurred in the estimates of the Delhi Public Works Department, and is due to anticipated savings (Rs. 1,50,000), and to postponement of certain works due (i) to late sanction to the revised distribution statement (Rs. 87,000) and (ii) for want of technical sanction to the estimates for additional buildings required for the Indian Forest Service College (Rs. 86,000) and (iii) petty savings on different works. |                         |                        |                       |                                                                |                                    |

| Mainly due to the reduction in the rate of establishment charge from 19½ per cent. to 13½ per cent. on outlay on works in the Presidency Circle. The ultimate saving was chiefly due to non-adjustment of Rs. 10,548 on account of supervision charges of Central Civil Works in Sikkim for want of Government Orders. |                              |                             |                      |                                                             |                                         |

4. *Pro rata*. Distribution—Civil works relating to the Central Government are generally carried out through the agencies of Provincial Governments and the Military Department by the establishments employed under those Governments and that Department. The total expenditure on account of establishment charges is distributed between the Central Government and the Provincial Governments and the Military Department usually on the basis of the actual outlay of the year on the works of the respective authorities. This is known as *pro rata* distribution. Any special establishment, wholly employed on a work, is, however, entirely charged to that work and is not included in the *pro rata* calculation.

Similar remarks apply to the charges on account of ordinary tools and plant used in the Public Works Department. The cost of special tools and plant, machinery, etc., required for a particular work or project is treated as a direct charge to the work or project concerned.

The total expenditure for Works, Establishment and Tools and Plant is given below:—

Rs.
